

What happens when you take an Aura Picture?

Your hand is placed on a sensor device that measures the vibrations of energy emitted from the different reflex zones of your hand. This information is transferred from the sensor electrodes and displays the colours of your aura that are currently around your body. By seeing your biofield we can analyze your energy in a variety of ways, seeing the whole picture - mind, body and spirit connection.

Your Aura Your Aura

Your Aura is a mirror image of you. It shows energies of your physical and psychological condition. Each organ resonates and emits a vibrational pulse which is part of our energy field. Biopulsar's Advanced Technology translates the energy read from each reflex point into the colour language of our body allowing us to see our full body electromagnetic field (AURA)

Aura Reading Reading

Each colour in your aura relates to how you use your energy.

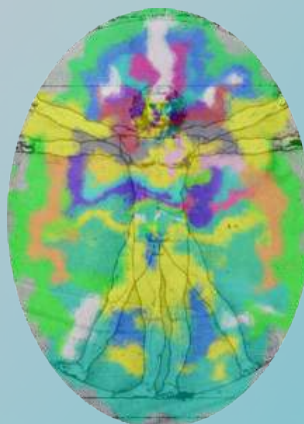

AURA & CHAKRA ANALYSIS

Colour is pure energy. Each colour of the rainbow has a different frequency and power which reaches through light rays. Light stimulates our body's endocrine system, which is connected to our energy center (chakras). Our body absorbs light energy for nourishment on a daily basis. We can absorb energy from different coloured foods, herbs, vitamins, Aromatherapy, essence, sound, minerals, clothing and Colour Baths®
